22” Slimline Pro Advertising Displays

Premium displays that combine stunning tablet-like aesthetics with a robust protective enclosure and tempered glass face

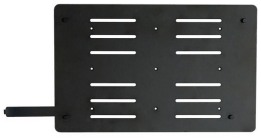

Protective Sleek Enclosure

These deluxe displays are the ultimate solution for displaying your content in public spaces. As well as protecting the internal components, the robust aluminium surround and tempered edge-to-edge glass also deliver captivating tablet-like aesthetics for a truly high-end feel.

Free Flush-Fit Wall Mount

A super slim wall mount is included at no extra cost, enabling you to install your screen in either landscape or portrait orientation with a secure and aesthetically-pleasing flush fit to the wall.

- 24/7 Commercial Grade
- Integrated Android Media Player
- 250cd/m² IPS Panel
- Giant Tablet Styling
- Lightweight Design
- Free Scheduling Software
- Multiple AV Inputs
- Landscape or Portrait Orientation
- Integrated Speakers
- 3 Year Commercial Warranty

Other Features

24/7 Commercial Grade

Designed for continuous use in public spaces, these displays utilise commercial grade LCD panels, LED backlights and internal components. This means they can run 24/7 for over 70,000 hours. To avoid tampering, they also have no external buttons or controls.

Integrated Android 14 Media Player

The built-in Android media player allows you to easily update on-screen content via USB plug and play. Alternatively, upgrade your screen to be networked without needing any additional hardware to update via the internet. Third-party software can also be installed if required.

250cd/m² IPS Panel

Commercial grade IPS technology ensures incredible image quality and colour depth with no fall-off in colour accuracy, as well as achieving ultimate lifelike colour from an ultra-wide viewing angle in landscape or portrait orientation.

Lightweight Design

By using less and lighter materials, component weight is kept to a minimum. This compact design makes both installation and maintenance much more convenient.

Toughened Safety Glass

Although the tempered glass face is incredibly tough, in the unlikely event of a breakage the specialised safety glass will shatter into small chunks rather than shards. Not only does this prevent injury, it also protects the LCD panel from damage.

Slender Frame

Featuring a slim frame with rounded corners, these displays achieve giant tablet styling while also minimising frame size to keep focus squarely on your content.

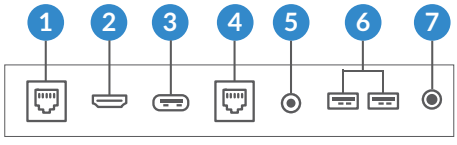

Aluminium Surround

Thanks to their stunning surround, which is made of diamond-cut 6-series aluminium alloy and has a premium brushed finish, as well as their unique concave indent profile, these displays are truly distinguishable. Sculpting the surround from a single piece, rather than in segments, achieves a cleaner finish.

Multiple AV Inputs

By connecting to an external device via HDMI, such as a third-party PC or media player, these versatile displays can be effortlessly transformed into a commercial monitor with striking aesthetics.

1 LAN
2 HDMI
3 USB Type-C
4 RS-232
5 Audio Out
6 USB 3.0 and 2.0
