Overview

A large size for bigger homes, offices, shops, factories and shared recycling at apartment blocks. Different colours can be used to set up a simple waste separation system, for example blue for paper and card, green for garden waste and grey or black for general waste.

It is made from tough polyethylene to EN840, with a curved, easy-clean body that resists cracks, dents, acids, alkalis, fungi and bacteria. Two large 200 mm wheels roll easily over kerbs and steps.

Key features

- **Polyethylene** to EU standard EN840
- **Easy to clean** resists acids, alkalis and bacteria
- **Two 200 mm wheels** and a built-in handle
- **Fits DIN and AFNOR** bin lifting equipment
- **Five colours** for recycling

Where it is used

Homes, offices, shops, schools, housing blocks, factories and warehouses.

Colour coding

A common scheme is **grey or black** for general waste, **green** for garden waste, **blue** for paper and card, **red** for plastics and **yellow** for cans and glass. Set it up to suit your own waste streams.
