HOOP BARRIERS

76 mm Hoop Barrier – Galvanised, Bolt Down

A heavy 76 mm galvanised hoop barrier with flange plates for bolting down, from 500 to 1000 mm high and 750 to 2000 mm long.

Product code **67925547** | Tube **76 mm diameter**

76 mm	500–1000	750–2000	Bolt
tube	heights, mm	lengths, mm	down

Overview

A steel hoop barrier that keeps vehicles off forecourts, paths and planted areas while looking neat and leaving clear views. It is a popular choice for car dealerships, as it protects the forecourt but still allows easy access.

Hoops can also be used as cycle and motorcycle loops, to mark out trolley bays, and as doorway or wall protectors. Each barrier is made to order in the UK.

Key features

- **76 mm steel tube** strong and durable
- **Galvanised mild steel** for long life
- **Coloured finish** option
- **Root fixed or surface mounted** options
- **Made to order** in the UK

Where it is used

Car showroom forecourts, building fronts, trolley bays, cycle and motorcycle parking, walkways and landscaped areas.

Hoops keep vehicles out while leaving clear views and easy walking access.

Bolt down

This version has round flange plates that **bolt down** onto an existing concrete surface, so it suits sites where you cannot dig. A concrete-in version is also available.
