TIMBER DELINEATOR BOLLARDS

Timber Delineator Bollard, Backweather Top

A solid oak delineator bollard that marks out paths, verges and car park edges and keeps vehicles where they belong, with a natural look that sits well in its surroundings. The backweather top is cut at a single slope, so rain runs off one side.

Product code **85559356** | Top **Backweather** | Material **Solid oak**

Overview

A square oak post with a backweather top: a single sloping cut across the top of the post. It is used to define the line between people and vehicles, stop vehicles driving onto grass verges, mark out paths and car park edges, and protect buildings and planting in country parks, playing fields, schools, business parks and landscaped grounds.

Every bollard is cut to order from solid oak in the length, section and finish you choose. Add grooves, with or without reflective tape, for a more finished look and better visibility after dark.

Key features

- **Solid oak** for a natural look that blends into parks, verges and landscaped grounds
- **Backweather top** a single sloping cut lets rain run off rather than sitting on the end grain
- **42 size options** from 900 mm to 3,000 mm long and 100 mm to 250 mm square
- **Three finishes** rough sawn, planed all round, or planed and chamfered
- **Optional grooves** with red, or red and white, reflective tape for night time visibility

Build your bollard

Each bollard is made to order. Choose three things and we cut it to suit.

1

Size

Seven overall lengths from 900 mm to 3,000 mm, in six square sections from 100 mm to 250 mm.

Full size table on page 3

2

Finish

Rough sawn for a rustic look, planed all round for a neater one, or planed and chamfered for the tidiest edges.

Finish guide on page 2

3

Grooves

None, single or double. Grooves can take red, or red and white, reflective tape for use near roads and car parks.

Groove options on page 3

Specification

Material	Solid oak, fresh sawn
Top style	Backweather
Section sizes (square)	100, 125, 150, 175, 200 or 250 mm
Overall lengths	900, 1,000, 1,200, 1,500, 1,800, 2,400 or 3,000 mm
Finish	Rough sawn, planed all round, or planed and chamfered
Grooving	No groove, single groove or double groove
Reflective tape	Single groove with red tape, or double groove with red tape at the top and white below
Below ground allowance	One third of the overall length (see page 3 for height above ground)
Planed finishes	Planing reduces the section size by approx. 6 mm
Moisture content	Up to 40% (fresh sawn, not air dried)
Storage before fitting	Outdoors only. Must not be stored indoors
Supply	Made to order. Lead times can be longer at very busy times

Which finish?

Rough sawn is the most natural, rustic look and suits country parks, farms and woodland settings.

Planed all round gives a smoother, neater finish for business parks, schools and town settings.

Planed and chamfered has the edges taken off too, for the tidiest look and no sharp corners.

Where they are used

Verges, footpaths, car park edges, playing fields, school grounds, business parks and the edges of planted areas.

Real oak, with real character. Every bollard is cut from solid, fresh sawn oak, so no two are alike. As the timber seasons outdoors it will develop natural cracks (known as checks), along with knots, grain marks and surface imperfections, and may show dark tannin marks in the first few months. These are the signs of a genuine hardwood rather than a manufactured product. They are part of how oak weathers and do not stop the bollard doing its job. Over time the oak mellows to a soft silver grey that settles into its surroundings. **Store outdoors until fitting.**

Size options

Every length is available in every section. Lengths are overall, top to base, with one third set into the ground.

Overall length	Above ground	100 mm	125 mm	150 mm	175 mm	200 mm	250 mm
900 mm	600 mm	●	●	●	●	●	●
1,000 mm	667 mm	●	●	●	●	●	●
1,200 mm	800 mm	●	●	●	●	●	●
1,500 mm	1,000 mm	●	●	●	●	●	●
1,800 mm	1,200 mm	●	●	●	●	●	●
2,400 mm	1,600 mm	●	●	●	●	●	●
3,000 mm	2,000 mm	●	●	●	●	●	●

● Available in all three finishes and all groove options.

Grooves and reflective tape

No groove Plain post, the simplest look

Single groove One groove below the top

Single groove, red tape Reflective red band

Double groove Two grooves below the top

Double groove, red and white tape Red band above white

Grooves are mainly for looks but also take reflective tape. Near a road, car park or anywhere used after dark, we recommend a taped option.

Other top styles

Pyramid

Half pyramid

Flat

4 way flat

Backweather
This sheet

The same oak bollard, sizes and finishes are available with each top. Each has its own product sheet.
