DIGITAL SIGNAGE

Battery Powered Digital A-Board: 3-Day Hire

For hire, not for sale. A battery powered 43" digital A-board for exhibitions, trade shows and outdoor events, hired for 3 days per unit. We deliver it, set it up and collect it at the end of the hire.

Product code **61537284** | Hire period **3 days per unit** | Screen **43" black**

3-day hire
per unit, with extra 24 hours available

27 hours
from one charge of the lithium-polymer battery

700 cd/m²
readable outdoors and in direct sunlight

IP56
weatherproof for rain, dust and airborne particles

Overview

This listing is for hire. Each hire is for 3 days per A-board and covers delivery to your location, setting up each screen and collection afterwards. Need it for longer? Additional 24-hour periods can be added. Delivery is available to Birmingham (including the NEC), Central London (including Earls Court) and the rest of England and Wales; delivery charges vary by location.

The A-board runs on its own lithium-polymer battery for up to 27 hours, so it needs no mains power and leaves no cables across walkways. The 700 cd/m² screen sits behind tempered anti-glare glass in an IP56 weatherproof body, light enough for one person to wheel on its castors. Content plays from a USB stick through the built-in Android media player.

Key features

- **Delivered, set up and collected:** hire covers delivery, set-up per screen and collection
- **Battery powered:** up to 27 hours from one charge, no mains needed on site
- **IP56 weatherproof** with tempered anti-glare glass over the screen
- **Charge level indicator** on the rear, showing capacity and estimated run time
- **Portable:** moulded polymer back, vibration-reducing castors and a locking bar
- **Built-in Android player:** USB plug and play content updates

How the hire works

Choose your dates and location. Each A-board is hired for 3 days. Pick a delivery area: Birmingham (including the NEC), Central London (including Earls Court) or elsewhere in England and Wales.

We deliver and set up. The A-board arrives at your location and is set up for you, ready to show your content.

We collect. At the end of the hire we pick it up. Add extra 24-hour periods if your event runs longer.

Getting content on screen

Copy your images and video to a USB stick and plug it in. The files copy to the A-board's internal storage and play on a loop, so you can change the message during the event in a few minutes.

The battery runs for up to 27 hours on a charge, so there is no mains connection and no cable across the floor. Ideal for exhibition stands, trade shows, event wayfinding and outdoor promotions.

Fixed frame on castors, wheeled into place by one person.

Book your hire

Tell us your event dates, where it is and how many A-boards you need, and we will arrange delivery, set-up and collection.
