Where it is used

Wine merchants, off-licences, convenience stores, supermarkets and premium food shops.

How the system works

Each BottleLok clamps onto a bottle and can only be released by your store's coded base. Units are programmed to your store before dispatch.

Clamp open to fit a bottle.

Talk to someone who sells this every day

Tell us what stock you want to protect and how many bottles, and we will help you put together the right BottleLok system.
