WAREHOUSE BARRIERS

Collision Protection Bar

A low profile 76 mm steel protection bar, 86 mm high, in 400 to 1200 mm lengths or a corner, to protect shelving and machinery.

Product code **45886412** | Height **86 mm**

76 mm	86 mm	400–1200	Corner
tube	high	lengths, mm	version

Overview

An economical way to protect plant, machinery, shelving and cabinets from forklifts, roll cages, trolleys and pallet trucks. The low profile still lets people walk up to the protected area.

It is made from 76 mm steel tube, powder coated yellow with black bands, on 10 mm base plates. It is designed for indoor use, with special lengths, colours and outdoor versions to order.

Key features

- **76 mm steel tube** 3 mm wall
- **Low 86 mm profile** easy pedestrian access
- **Yellow with black bands** high visibility
- **Three lengths** plus a corner bar
- **Special sizes** to order

Where it is used

In front of shelving, cabinets, switchgear, first aid points, machinery and wall-mounted equipment.

Low level protection

Most knocks from pallet trucks and roll cages happen at floor level. A low bar stops them without blocking access.
