PEDESTRIAN BARRIERS

Crowd Control Barrier – HDPE

A grey HDPE crowd control barrier, 2000 mm wide and 1100 mm high, with swivel feet, that will not rust and stacks for storage.

Product code **22877669** | Size **2000 × 1100 mm**

2000 mm	1100 mm	HDPE	Swivel
wide	high	will not rust	feet

Overview

A crowd control barrier for festivals, concerts, events, car parks and queues. It is made in virgin HDPE with no screws or rivets, so it will not rust and is strong and durable.

It is lighter than traditional metal barriers, so it is easy to handle and put up on flat or uneven ground. The grey colour blends into its surroundings, units link together, and the 360° swivel feet let them stack flat.

Key features

- **Virgin HDPE** no screws or rivets
- **Will not rust** long life
- **Links together** for long runs
- **Swivel feet** stack for storage
- **No sharp edges** safe to handle

Where it is used

Festivals, concerts, sports events, car parks, queues and cordoned-off areas.

Why plastic?

HDPE barriers are lighter to carry than steel, will not rust or need painting, and have no sharp edges.
