EV PROTECTION

EV Charger Protection Guard – EV Hoops

An 800 mm wide 48 mm galvanised steel hoop that protects EV chargers, surface mounted or root fixed.

Product code **55615760** | Width **800 mm**

800 mm	750 mm	48 mm	8 kg
wide	high	tube	

Overview

This hoop guard protects EV charging points from accidental damage by vehicles.

It is a cost-efficient guard made from 48 mm steel tube, hot-dip galvanised, with a powder coated option.

Key features

- **Galvanised steel** 48 mm tube
- **800 mm wide** covers the charger
- **Surface or root fixed** options
- **Powder coated** option
- **Cost effective** protection

Where it is used

EV charging bays in car parks, workplaces, retail parks, hotels, depots and forecourts.

Root fixed or surface mounted?

Root fixed guards are concreted into the ground, the strongest option for new paving.

Surface mounted guards bolt down onto an existing concrete base.
