EV PROTECTION

EV Charging Point Protection – Column Protector

A welded U-shaped guard in 60 mm tube, 500 × 700 mm, to protect EV chargers from vehicle impact.

Product code **65647170** | Size **500 H × 700 W mm**

500 mm	700 mm	60 mm	UK
high	wide	tube	made

Overview

This UK-made guard protects EV chargers, columns and other vulnerable assets from vehicle damage.

It is made from 60 mm galvanised steel tube with fully welded joints and base plates.

Key features

- **U-shaped design** guards three sides
- **60 mm tube** fully welded
- **Galvanised** or yellow with black bands
- **Root fixed** or surface mounted
- **Indoor or outdoor** use

Where it is used

EV charging bays in car parks, workplaces, retail parks, hotels, depots and forecourts.

Root fixed or surface mounted?

Root fixed guards are concreted into the ground, the strongest option for new paving.

Surface mounted guards bolt down onto an existing concrete base.
