EV PROTECTION

EV Corner Protection Guards

A fully welded 90° corner guard in 60 mm tube, 500 or 800 mm high, to protect EV chargers and corners.

Product code **56773486** | Footprint **700 × 700 mm**

500 / 800	60 mm	700 × 700	UK
mm high	tube	mm	made

Overview

These UK-made corner guards add vital protection to EV charging points and other assets at risk from impact.

The 90° angle suits chargers on corners, and fully welded joints and base plates give strength and reliability.

Key features

- **90° corner design** guards two faces
- **Two heights** 500 or 800 mm
- **60 mm tube** fully welded
- **Galvanised** or yellow with black bands
- **Root fixed** or surface mounted

Where it is used

EV charging bays in car parks, workplaces, retail parks, hotels, depots and forecourts.

Root fixed or surface mounted?

Root fixed guards are concreted into the ground, the strongest option for new paving.

Surface mounted guards bolt down onto an existing concrete base.
