EV PROTECTION

EV Point Protector – Stainless Steel

A hooped stainless steel guard in 48, 76 or 90 mm tube that shields EV charging points at bumper height.

Product code **91103489** | Tube **48 / 76 / 90 mm**

3	Up to 1115	Stainless	2
sizes	mm high	steel	fixings

Overview

This stainless steel protector shields EV charging points, lamp posts and other car park furniture from vehicle damage.

It sits at bumper height and is made as one continuous curve, giving robust protection that also looks smart.

Key features

- **Hooped design** one continuous curve
- **Three sizes** 48, 76 or 90 mm tube
- **Stainless steel** smart and corrosion resistant
- **Bumper height** takes the knocks
- **Root fixed** or surface mounted

Where it is used

EV charging bays in car parks, workplaces, retail parks, hotels, depots and forecourts.

Root fixed or surface mounted?

Root fixed guards are concreted into the ground, the strongest option for new paving.

Surface mounted guards bolt down onto an existing concrete base.
