EV PROTECTION

EV Protection Wheel Stops – Recycled Rubber

Recycled rubber wheel stops, 550 to 1800 mm long, with reflective panels, to stop vehicles overrunning EV points.

Product code **58573588** | Lengths **550–1800 mm**

550–1800 mm long

100 mm high

Reflective panels

Fixings included

Overview

These wheel stops protect EV charging points, walls, fencing and planting by stopping vehicles overrunning the bay.

They are made from highly compressed recycled rubber for a long life, with reflective panels and covers for the fixing bolt holes.

Key features

- **Stops overruns** protects chargers
- **Reflective panels** white or yellow
- **Oil, heat and UV resistant** long life
- **Four lengths** 550 to 1800 mm
- **Fixings included** with hole covers

Where it is used

EV charging bays in car parks, workplaces, retail parks, hotels, depots and forecourts.

No drilling?

In multi-storey car parks where drilling is not allowed, wheel stops can be fixed with a special adhesive.
