HEIGHT RESTRICTORS

Fixed Height Restrictor Barrier

A fixed galvanised steel height restrictor, 3 to 7 m wide, that keeps HGVs, vans and caravans out of low-clearance car parks.

Product code **29894868** | Widths **3 m to 7 m**

2.2 m	3–7 m	Fixed	Galvanised
clearance	widths	beam	steel

Overview

A fixed height restrictor that limits access for high-sided vehicles such as HGVs and caravans. It is ideal where limited overhead clearance would cause problems, such as multi-storey or underground car parks.

It is made from galvanised mild steel, coated red as standard or left galvanised. A knock bar and a maximum height warning sign are available as extras.

Key features

- **Fixed beam** permanent restriction
- **2.2 m clearance** 2.05 m with knock bar
- **Galvanised steel** strong construction
- **Two finishes** galvanised, or galvanised and coated
- **Knock bar and sign** options

Where it is used

Surface, retail, multi-storey and underground car parks, staff car parks, private roads and drives.

Use appropriate height warning signs with the barrier.

Root fixed or surface mounted?

Root fixed posts are concreted into the ground, the strongest and most permanent option.

Surface mounted posts bolt down onto an existing concrete base, and can be moved later if needed.
