HOOP BARRIERS

Galvanised Hoop Barrier – 48 mm

A 48 mm galvanised steel hoop barrier, 500 to 2000 mm wide and up to 1000 mm high, to keep vehicles off forecourts and paths.

Product code **88389495** | Tube **48 mm diameter**

48 mm	500–2000	500–1000	Galvanised
tube	widths, mm	heights, mm	mild steel

Overview

A steel hoop barrier that keeps vehicles off forecourts, paths and planted areas while looking neat and leaving clear views. It is a popular choice for car dealerships, as it protects the forecourt but still allows easy access.

Hoops can also be used as cycle and motorcycle loops, to mark out trolley bays, and as doorway or wall protectors. Each barrier is made to order in the UK.

Key features

- **48 mm steel tube** strong and durable
- **Galvanised mild steel** for long life
- **Coloured finish** option
- **Root fixed or surface mounted** options
- **Made to order** in the UK

Where it is used

Car showroom forecourts, building fronts, trolley bays, cycle and motorcycle parking, walkways and landscaped areas.

Hoops keep vehicles out while leaving clear views and easy walking access.

Root fixed or surface mounted?

Root fixed posts are concreted into the ground, the strongest and most permanent option.

Surface mounted posts bolt down onto an existing concrete base, and can be moved later if needed.
