PEDESTRIAN GATES

Harby Manual Pedestrian Gate

A full height pedestrian gate with maglock and door closer, made to sit alongside our full height turnstiles for wheelchairs, deliveries and equipment.

Product code **33779356** | Passage **850 mm** | Lock **Maglock and closer**

850 mm	2125 mm	30 / min	Any RAL
clear passage width	overall height to match our turnstiles	people per minute	colour on request

Overview

A manual full height pedestrian gate for multiple uses, designed to be used with the Harby Full Height Pedestrian Turnstile. It gives a wider, secure route for wheelchair users, deliveries and equipment that will not pass through a rotor.

The gate comes complete with a maglock and door closer as standard. The maglock can be linked to your existing fire and access control systems, or controlled manually by an operator.

Key features

- **Maglock and door closer** included as standard
- **Links to fire and access control,** or operator controlled
- **850 mm clear passage** for wheelchairs and equipment
- **Matches the Harby** full height turnstiles in height and style
- **Galvanised, powder coated** or galvanised and powder coated
- **Compact and robust** for internal or external use

How it works

Secure by default. The maglock holds the gate closed and the closer returns it after every use.

Release on credential. Link the maglock to your access control so authorised users can open the gate with a card or fob.

Fire alarm link. Connect it to the fire alarm so the gate releases in an emergency, or let an operator control it.

Where to use it

Use it beside a full height turnstile to give a secure, accessible route for wheelchair users, pushchairs, deliveries and site equipment.

For outdoor and coastal sites, choose galvanised, or galvanised and powder coated.

Order it in the same finish and colour as your turnstile so the entrance matches.

Powder coated green, shown beside a matching full height turnstile.

Talk to someone who sells this every day

Tell us about your entrance and the turnstile it will sit beside, and we will help you match the finish and control.
