AUTOMATIC BOLLARDS

Heavy Duty Automatic Electromechanical Bollard

A robust 219 mm automatic bollard with an oil-bath gear motor and LED light crown, built for busy commercial sites.

Product code **95968375**

Height **500 or 700 mm**

150,000 J
break-in resistance

IP67
protection rating

1,500
operations per day

LED crown
flush when lowered

Overview

A heavy duty electromechanical bollard for demanding, high-traffic sites such as car dealerships, supermarket car parks, large retail sites and industrial yards with plant movement.

An internal oil-bath gear motor drives the shaft, and the metal parts are cataphoresis treated with an EPDM seal in the flange. The LED light cap sits into the floor flange when the bollard is lowered, keeping debris out of the casing.

Key features

- **Oil-bath gear motor** for heavy use
- **LED light crown** fits flush into the flange when down
- **EPDM flange seal** keeps debris out
- **Cataphoresis treated** metal parts
- **Up to 1,500** operations per day
- **Grey or stainless** finish

Specification

Product code	95968375
Dimensions	
Height	500 mm or 700 mm
Shaft diameter	219 mm
Shaft wall	5 mm steel
Performance	
Break-in resistance	Up to 150,000 J
Rise / lower time	Approx. 6 s (500 mm) or 9 s (700 mm)
Use	Up to 1,500 operations per day
Protection rating	IP67
Operating temperature	-40°C to +60°C (integrated heater)
Electrical	
Power	230 V AC, 50–60 Hz
Motor	0.3 kW per bollard, internal oil-bath gear motor
Power failure	Lowers on power failure; battery back-up available
Control	Our automatic bollard control board, up to 4 bollards
Finish	
Options	Painted steel in RAL 7015 grey, or stainless steel
Light	LED light crown as standard

Not suitable for areas prone to flooding.

Built for heavy use

The oil-bath gear motor is designed for frequent operation on busy sites, and the treated metal parts and sealed flange stand up to harsh conditions.

When lowered, the LED cap sits into the flange so the surface stays clean and debris stays out.

Where it is used

Car dealerships, supermarket and retail car parks, industrial sites with heavy plant movement, and council-managed access points.

Use with fixed bollards in the same style to close off wider openings.

Stainless steel finish with LED light crown.
