WAREHOUSE BARRIERS

Heavy Duty Impact Protection Railing

A modular heavy duty steel railing system with 100 mm posts and 120 × 80 mm rails, for protecting walkways from vehicles.

Product code **26042778** | Posts **100 × 100 mm**

100 mm	120 × 80	1–2 m	TÜV
square posts	rails, mm	rail lengths	tested

Overview

A heavy duty railing system that protects pedestrian walkways, work zones, equipment and machinery from vehicle traffic. It is built to an exceptional standard of strength and durability.

It is modular, so it can be built to suit any layout, extended at any time, and damaged parts are easy to replace. Countersunk bolts fix the rails to the posts. It is TÜV tested to DGUV 108-007.

Key features

- **Heavy duty steel** 100 mm posts
- **Modular** end, mid and corner posts
- **Countersunk bolts** neat rail fixing
- **Indoor or outdoor** finishes
- **TÜV tested** to DGUV 108-007

Where it is used

Warehouses, factories, distribution centres and loading areas, to separate forklifts and vehicles from people, racking, machinery and buildings.

Heavy or medium duty?

Choose **heavy duty** where forklifts and vehicles are likely to hit the barrier. The **medium duty** system suits areas where impacts are lighter.
