WAREHOUSE BARRIERS

# Hybrid Column Protection

Steel posts and polypropylene rails that surround a column, for square or rectangular columns from 200 to 700 mm.

Product code **53717724** | Columns **200–700 mm**

| 200–700 | 1000 mm | PP | Cut |
|---|---|---|---|
| columns, mm | high posts | rails | to fit on site |

## Overview

A column guard that combines steel and plastic to protect columns of different shapes and sizes. Steel posts paired with polypropylene rails give strong protection while absorbing the forces of a collision.

It suits rectangular columns from 200 to 700 mm, and the cross rails can be cut on site to fit. Assembly instructions and a drilling template are supplied.

## Key features

- **Steel posts** black with yellow caps
- **Polypropylene rails** absorb impacts
- **Fits 200–700 mm** columns
- **Cut to fit** on site
- **Drilling template** supplied

## Where it is used

Columns in warehouses, distribution centres, car parks and factories where forklifts and vehicles pass close by.

## Why protect columns?

A damaged column can weaken a building and be costly to repair. A guard takes the impact instead.
