WAREHOUSE BARRIERS

Hybrid Railing Gate – Self Closing

A self-closing steel gate for the hybrid railing system, with a gas cylinder closer and a panel for a warning sign.

Product code **70708282** | Gate **835 × 475 mm**

835 mm	475 mm	Self	Left or right
wide	high	closing	hand

Overview

A gate made to fit the hybrid railing system, giving people a safe way through. It can hang from either side and opens inwards or outwards up to 90°.

A gas cylinder closes it automatically. A welded panel adds strength and visibility and can carry a warning sign (not supplied). A separate post is needed to hang it. For indoor use.

Key features

- **Self-closing** gas cylinder closer
- **Left or right hand** opens in or out to 90°
- **Welded panel** for a warning sign
- **High quality steel** yellow gate, black post
- **Fits hybrid** railing system

Where it is used

Pedestrian crossing points in hybrid railing runs, indoors.

Why self-closing?

The gate swings shut on its own, so the railing line is never left open by mistake.
