CHECKOUT GATES

Lockable Manual Mechanical Swing Gate

A lockable, self-closing swing gate for checkouts and store entrances, with an extendable arm and anti-panic function.

Product code **74144896**

Hand **Left or right**

Lockable	500–950	1070 mm	L / R
lock the lane when closed	extendable arm, mm	overall height	left or right handed

Overview

A mechanical swing gate for checkouts and store entrances that can be locked when the lane or entrance is not in use. It is a simple, reliable way to control the flow of customers through your store.

An integrated, hydraulically cushioned mechanism returns the arm smoothly and evenly to its resting position, and an anti-panic function is included as standard. The arm extends to suit the opening.

Key features

- **Lockable** to close off the lane when not in use
- **Extendable arm** adjusts to the width of the opening
- **Hydraulically cushioned** return to the resting position
- **Anti-panic function** as standard
- **Left or right handed** to suit your layout
- **Bright chrome** mild steel body

Where it is used

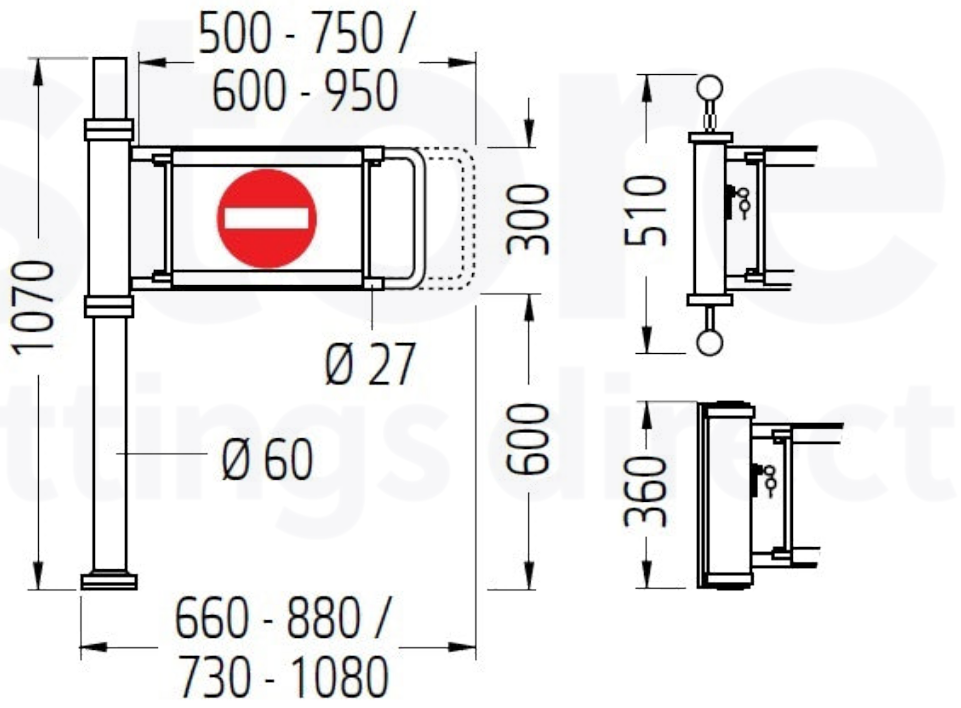

Checkout lanes, store entrances and exits, libraries, leisure centres, cinemas, office receptions and ticket checkpoints.

Lock it across a lane or entrance that is not in use, and open it again when you need it.

Make it your own

The plastic infill can be customised with symbols and colours to match your branding, show direction arrows or display safety signs.

Choose a left or right handed gate and the arm length to suit your opening.

Gate dimensions in mm, with the two arm length options.

Talk to someone who sells this every day

Tell us about your checkout and entrance layout, and we will help you choose the hand and arm length.
