BARRIERS

Manual Swing Barrier Gate

A robust manual swing gate for controlling vehicle access to car parks and private roads, in lengths from 3 to 7 metres.

Product code **259289269** | Length **3 to 7 m**

3–7 m	120 mm	60 mm	Lockable
gate length	main post	gate arm	open or closed

Overview

The swing barrier gate is a simple and dependable way to control vehicle access. It swings open by hand and can be locked open or closed.

The hinge post is 120 × 120 mm steel box section with a 3 mm wall, and the gate arm is 60 × 60 mm. It is powder coated red as standard with reflective banding, and other RAL colours are available.

Key features

- **Manual swing** simple and reliable
- **Lockable** in open or closed position
- **Self-latching** catch post option
- **3 to 7 m** gate lengths
- **Red as standard** RAL colours available

Where it is used

Car parks, private roads, industrial sites, depots, farms, schools and service yards.

Locking

The gate can be padlocked in either the open or closed position, so access is controlled when the site is closed.
