diameters, mm

2 fixings
root fixed or base plated

Overview

A stainless steel bollard with an angled mitre top that gives a modern, elegant look. It adds clear security to car parks, walkways and building fronts and helps deter ram raids.

Made from 304-grade brushed stainless steel, it resists the weather and needs very little upkeep. Architects and planners choose it for prestigious sites, and it matches our removable mitre top bollard.

Key features

- **304 stainless steel** brushed finish
- **Mitre top** for a modern profile
- **9 diameters** from 60 mm to 168 mm
- **Corrosion resistant** with minimal upkeep
- **Root fixed or base plated** options

Where it is used

Office and retail entrances, public squares, car parks and walkways on prestigious sites.

Use with our removable mitre top bollard where occasional vehicle access is needed.

Root fixed or base plated?

Root fixed bollards are concreted into the ground, the strongest option for new groundworks.

Base plated bollards bolt down onto an existing concrete surface with a flange plate, which suits sites where you cannot dig.

Mitre top stainless steel bollards outside a retail park.
