TRAFFIC CONTROL

One Way Flow Plates

Galvanised and yellow coated steel flow plates that let vehicles pass in one direction only, surface mounted or cast in.

Product code **61528126**

Clearance **150 mm min**

One	290 mm	Galvanised	2
way	high	steel	fixings

Overview

One way flow plates control traffic to one direction only and are used in groups to cover the full road width.

As a vehicle passes over, the flap is pushed down and then returns upright. A rubber buffer keeps noise to a minimum.

Key features

- **One-way control** flap returns upright
- **Rubber buffer** reduces noise
- **Galvanised steel** yellow coated
- **Surface mounted** or cast in
- **Use in groups** for full road width

Where it is used

Car park entrances and exits, one-way systems and private roads. Not recommended for HGVs.

Use with a speed ramp

Pair flow plates with a recycled speed ramp to bring vehicles down to 5 mph before they cross.
