IMPACT PROTECTION

Pallet Racking Protection – Steel Guards

Powder coated steel racking guards in right-angle or U profiles, 400 to 1200 mm high, to protect uprights from forklift damage.

Product code **96326518** | Width **160 mm**

160 mm	400–1200	5–6 mm	2
wide	mm high	steel	profiles

Overview

These steel guards protect pallet racking, corners and columns in warehouses from damage by forklifts and machinery.

Choose a right-angle profile for two-way protection or a U profile for three-way protection. Each guard bolts to the floor in front of the upright.

Key features

- **Right-angle or U profile** two or three-way protection
- **Three heights** 400, 800 and 1200 mm
- **5 mm or 6 mm** steel gauge
- **Yellow with black stripes** high visibility
- **Floor fixed** independent of the racking

Where it is used

Warehouses, factories, loading bays, distribution centres, car parks and retail back-of-house areas.

Right-angle or U profile?

Right-angle guards protect the two exposed faces of an end upright.

U profile guards wrap three sides for uprights facing an aisle.
