WAREHOUSE BARRIERS

Railing System Gate – MD and HD

A steel pedestrian gate for medium and heavy duty railing systems, in manual or self-closing versions, powder coated yellow.

Product code **82952933** | Gate **835 × 475 mm**

835 mm	475 mm	Self-closing	Left or right
wide	high	option	hand

Overview

A gate for medium duty and heavy duty railing systems, giving people a controlled way through. It fits to end, centre or corner posts and can hang from either side.

It opens up to 90° inwards or outwards. A welded panel adds strength and visibility and can carry a warning sign (not supplied). Manual and self-closing versions are available.

Key features

- **Fits MD or HD** railing systems
- **Left or right hand** opens in or out to 90°
- **Self-closing** version available
- **Welded panel** for a warning sign
- **High quality steel** powder coated yellow

Where it is used

Pedestrian crossing points in warehouse and factory railing runs, and entrances to protected work areas.

Manual or self-closing?

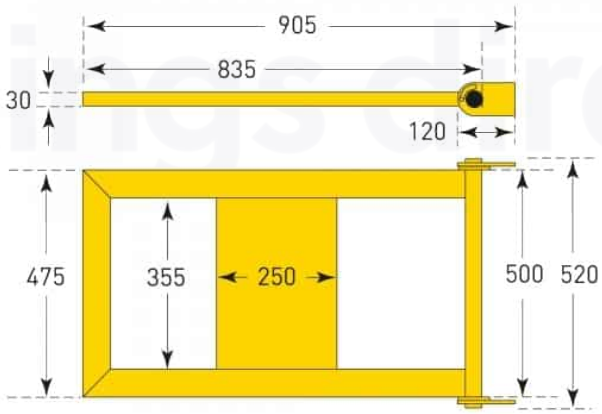

A **self-closing** gate swings shut on its own, so the railing line is never left open by mistake.
