REMOVABLE BOLLARDS

Removable Galvanised Steel Bollard – 1000 mm

A removable galvanised steel bollard, 1000 mm above ground, that lifts out of a ground socket when you need vehicle access.

Product code **94082301**

Height **1000 mm above ground**

1000 mm	60–219	Removable	Galvanised
above ground	diameters, mm	ground socket	mild steel

Overview

A removable steel bollard, 1000 mm above ground, that gives the same strong protection as a fixed bollard but lifts out when access is needed. Steel will not shatter on impact, so it suits ram raid deterrence, protected parking and walkways.

It sits in a socket set into the ground. Lift it out to open the space and drop it back in to close it. It matches our fixed galvanised bollards so runs can mix fixed and removable posts.

Key features

- **Removable** from a ground socket
- **Galvanised mild steel** for long life
- **11 diameters** from 60 mm to 219 mm
- **Matches our fixed bollards** for mixed runs
- **Made to measure** heights, colours and diameters on request

Where it is used

Car park entrances, private roads, service yards, emergency access routes and pedestrian areas that need opening from time to time.

How it works

The bollard drops into a socket set in the ground. Lift it out to let vehicles through, then replace it to close the space again.

The bollard and its ground socket.
