WALL PROTECTION

Rubber Wall Bumper Rail – 9 m Coil

A solid rubber wall bumper rail in a 9 m coil that can be cut to length, for protecting walls in freezers, warehouses and corridors.

Product code **61920439** | Coil **9 m**

9 m
coil

100%
rubber

Cut
to length

Indoor
and outdoor

Overview

A solid rubber bumper rail that protects walls and property from impact damage. It is pre-drilled with concealed fixings, giving a smooth surface that does not snag materials.

It is completely resilient to extreme temperatures, so it is popular in walk-in freezers, and also suits supermarkets, airports, hospitals, hotels and warehouses.

Key features

- **100% rubber** high impact resistance
- **9 m coil** cut to any length
- **Concealed fixings** smooth finish
- **Temperature resilient** ideal for freezers
- **Indoor or outdoor** use

Where it is used

Walk-in freezers and cold stores, supermarkets, warehouses, loading areas, hospital and hotel corridors, and airports.

Why rubber?

Rubber absorbs knocks from trolleys, cages and pallet trucks, and stays tough in freezing conditions.

Bumper rail along a building wall.
