TREE GRILLES

Steel Tree Grille – Rose Design

A square galvanised steel tree grille with a radiating rose pattern, in 900, 1000 or 1200 mm sizes, supplied with its frame.

Product code **88375530**

Sizes **900, 1000 or 1200 mm**

900–1200	450–600	2 sections	Frame
square sizes, mm	apertures, mm	bolted together	included

Overview

A tree grille protects the roots of street trees from damage caused by vehicles and people walking over them. The Rose design has a radiating rose pattern that suits town centres, pedestrian zones, retail parks, schools and car parks.

It is made from galvanised mild steel, finished black or left galvanised, and is supplied in two sections that bolt together around the tree. Each grille comes with a galvanised steel frame that keeps it stable and stops it sagging.

Key features

- **Galvanised mild steel** for long life
- **Black finish** RAL 9005, or plain galvanised
- **Two-part grille** bolts together around the tree
- **Support frame** included
- **Three sizes** 900, 1000 or 1200 mm

Where it is used

High streets, pedestrian zones, retail parks, business courtyards, schools, housing schemes and car parks.

Choosing a size

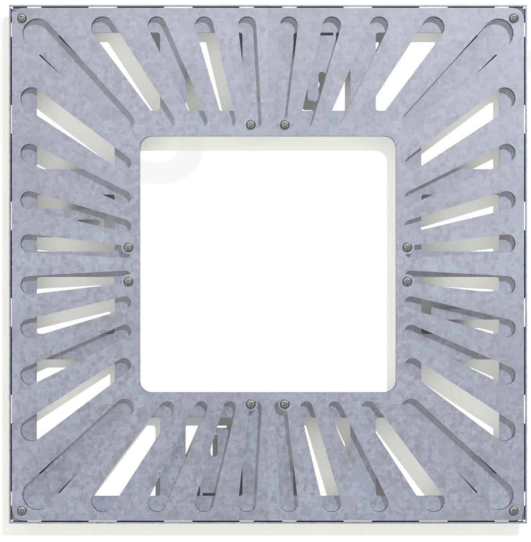

Pick the size that suits the tree pit. The aperture grows with the grille: **450 mm** on the 900, **500 mm** on the 1000 and **600 mm** on the 1200.
