TREE GUARDS

Steel Tree Guard – Round

A round galvanised steel tree guard, 1800 mm tall, with 450, 500 or 600 mm apertures to protect young trees.

Product code **69305236** | Height **1800 mm**

1800 mm	450–600	Black	Galvanised
tall	apertures, mm	RAL 9005 option	mild steel

Overview

A tree guard protects young street trees from knocks, vandalism and damage by vehicles while they establish. Its open bar design lets light and air through while keeping people and vehicles back.

It is made from galvanised mild steel, finished black or left galvanised. The round guard pairs with our steel tree grilles for a complete tree pit.

Key features

- **Galvanised mild steel** for long life
- **1800 mm tall** open bar design
- **Three apertures** 450, 500 or 600 mm
- **Black finish** RAL 9005, or plain galvanised
- **Matches our tree grilles** for a complete tree pit

Where it is used

New tree planting on high streets, pedestrian zones, retail and business parks, schools and housing schemes.

Choosing an aperture

Choose the aperture to suit the tree and its expected growth. The **600 mm** guard leaves the most room for the trunk.
