HEIGHT RESTRICTORS

Swing Height Restrictor Barrier

A galvanised steel height restrictor, 3 to 7 m wide, with a beam that swings open to let taller vehicles through when needed.

Product code **82916001** | Widths **3 m to 7 m**

2.2 m clearance

3–7 m widths

Swings open

Galvanised and coated red

Overview

A height restrictor that keeps high-sided vehicles out of commercial and industrial sites and car parks. The beam swings open to allow full access when needed, and can be locked open using a second catch post.

It is made from galvanised mild steel and coated red as standard, with other colours to order. A knock bar and a maximum height warning sign are available as extras.

Key features

- **Swinging beam** opens for full access
- **2.2 m clearance** 2.05 m with knock bar
- **Galvanised steel** coated red as standard
- **Lockable open** with a second catch post
- **Knock bar and sign** options

Where it is used

Surface, retail, multi-storey and underground car parks, staff car parks, private roads and drives.

Use appropriate height warning signs with the barrier.

Root fixed or surface mounted?

Root fixed posts are concreted into the ground, the strongest and most permanent option.

Surface mounted posts bolt down onto an existing concrete base, and can be moved later if needed.
