Other Features

Unique Storefront Display

Turn your window into a powerful promotional tool without compromising visibility. Our Transparent LED display lets you transform empty glass into dynamic digital real estate, attracting attention with bright, vivid content while maintaining natural light and open views inside. Designed for maximum impact and minimal intrusion, it's perfect for retail stores, showrooms, and commercial environments looking to stand out. Whether you're running a campaign or reinforcing your brand identity, this high-tech window display offers a seamless blend of innovation and elegance that draws customers in and keeps your space feeling open and inviting.

High Transparency

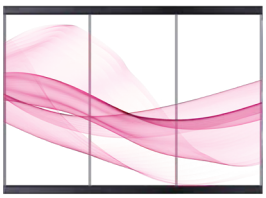

With up to 92% transmittance, your content shines through without obstructing the view. Passersby can see both your messaging and the store interior, preserving the open, modern aesthetic of your space.

Flexible Column Configuration

Choose the setup that suits your space—whether it's a single column or a striking three-panel arrangement. Our modular columns adapt to your window size, giving you a clean, tailored fit with maximum visual impact.

Expand up to 3 seamless columns!

Outstanding High Brightness

With impressive brightness levels, the DV-LED Video Wall has outstanding visibility. The display is sunlight readable even in direct sunlight, instantly catching attention from viewers and ensuring your content always stands out.

Technical Drawing

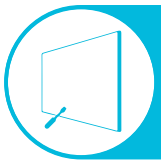

Why Choose Our Commercial Display Solutions?

Lifetime Technical Support

From the moment you receive your product, throughout the duration of your warranty and even after your warranty has expired we are here to support you. If you require any assistance setting up or using your product, or have any problems at all, we can provide free technical support via telephone and email.

On-site Support and Maintenance*

If needed, we can provide an installation service for any of our products. We can also set up service-level agreements for larger projects that require maintenance contracts.

Extended Warranty*

All of our commercial display products come with a 3 year commercial warranty as standard but if you want to extend this you can upgrade this to cover a 5 year period at point of purchase.

Training

As well as providing free remote CMS training sessions and webinars we can also visit you to deliver bespoke training for our software and hardware*.

Advanced Replacements†

Should your display suffer from any kind of hardware failure during the warranty period we will send you an advanced replacement and arrange for your old display to be collected, free of charge. This ensures no downtime where you are without a screen.

Custom Product Testing & Configuration

If you need us to test third party software or a website, or configure your screen in a particular way before it is dispatched (e.g. in a particular orientation or network mode), we can do so to make your life easier.

3D Rendering

Want to know how a particular screen will look once installed? Send us a photo of the location and we will create a 3D rendering of any screen in situ to help you to visualise how amazing it will look.

Logistics Support

We hold more stock in our UK warehouse than any other manufacturer so we can help you meet tight deadlines. For last minute orders we can also offer special express or morning delivery options*. We also carry out UK based quality control checks on every display before it leaves our warehouse.

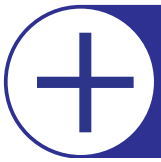

Project Support

If you need to loan a sample unit to test we'd be more than happy to arrange this. We can also provide a rental service for temporary projects*.

Customisation*

Your display can be customised to suit your requirements by adding your logo or printed graphics or even tailoring the colour of a display. We can also carry out hardware modifications to existing products or manufacture bespoke solutions for special projects.

Extras*

As well as being able to provide accessories and add-ons, such as extra remote controls, NUC PCs and video wall controllers, we can also supply custom made flight cases which are great if a display needs to be moved safely from place to place.
