IMPACT PROTECTION

Warehouse Corner Protection Guard

A fully welded 90° corner guard in 60 mm tube, 500 or 800 mm high, for corners, pillars and EV chargers.

Product code **61775403** | Footprint **700 × 700 mm**

500 / 800	60 mm	700 × 700	90°
mm high	tube	mm	corner

Overview

This corner guard protects EV charging points, columns, pillars, machinery and other key assets from impact.

Its 90° angle suits corners exposed to work vehicles, and fully welded joints and base plates give strength and reliability.

Key features

- **90° corner design** guards two faces
- **Two heights** 500 or 800 mm
- **60 mm tube** fully welded
- **Galvanised** or yellow with black bands
- **Root fixed** or surface mounted

Root fixed or surface mounted?

Root fixed guards are concreted into the ground, the strongest option for new floors.

Surface mounted guards bolt down onto an existing concrete floor.

Where it is used

Warehouses, factories, loading bays, distribution centres, car parks and retail back-of-house areas.
